

In the historic election of 2018, CLEAN-PAC helped elect 42 Democrats to the United States House of Representatives. From coast to coast, we supported candidates who campaigned vigorously on strong environmental protection and climate leadership. With your generous support, CLEANPAC helped turn the blue wave of 2018 into a green wave that is already delivering results for our country and future generations.

I am thankful for the support of Congressman Jared Huffman's CLEAN PAC. As a former clean energy CEO, scientist, and first time candidate, I ran for office on the platform of fighting climate change because I believe we need more folks in office who understand that reducing our harmful effect on the planet needs to be a top priority. Our window to act is closing fast on the climate crisis, and with your help of CLEAN PAC, I can now be a climate leader in office.

Sean Casten, IL-6

Colin Allred, TX-32

Committees: Transportation & Infrastructure, Foreign Affairs, and Veterans' Affairs

Allred defeated Pete Sessions that had a LCV lifetime score of 2%

Nanette Barragán, CA-44

Committees: Armed Services and Agriculture
Escobar replaced Beto O'Rourke that had a LCV lifetime score of 95%

Abby Finkenauer, IA-1

Committees: Transportation & Infrastructure
Finkenauer defeated Rod Blum that had a LCV lifetime score of 2%

From Chaco Historical Park to Carlsbad Caverns, New Mexico has a long history of preserving the cultural and historical sacred sites of our ancestors. I believe it is our responsibility to continue that preservation effort for the children of the future, to experience and learn from the past in these living sites. I ran for New Mexico's 1st Congressional District to make a difference for my district and state in the fight against climate change, and now, more than ever, we need leaders who believe in fighting back against the man made climate problems we face today. It will take all of us working together to preserve the past while also saving our future for the next generation. With Congressman Jared Huffman by my side and the vigorous support of CLEAN PAC in 2018, I look forward to being a leader in Congress on climate change.

Congresswoman Deb Haaland, NM-1

Jared Golden, ME-2

Committees: Armed Services and Small Business

Golden defeated Bruce Poliquin that had a LCV lifetime score of 16%

Jimmy Gomez, CA-34

Committees: Armed Services and Homeland Security

Slotkin defeated Mike Bishop that had a LCV lifetime score of 4%

Gregorio Sablan, Northern Mariana Islands

Committees: Natural Resources and Education & Labor

Climate Change is the greatest threat facing humankind. In Orange County, it's already arrived. If we hope to reverse the course of rising seas and wildfires, we can't wait any longer to address the threat.

Corporate polluters and climate deniers are spending a lot of money in our political system to prevent that from happening. We need a coalition of our own to stand up for future generations' right to a livable future. That's why I'm proud to be endorsed by CLEAN PAC, and look forward to working with Congressman Huffman to fight climate change.

Congressman Harley Rouda, CA-48
